SUMMARY

I am Mohammad Sahil Detail-oriented and analytical **Data Analyst** with hands-on experience in **SQL, Excel, Power BI, Tableau and TallyPrime**. Skilled in transforming **raw data** into actionable **insights** through **dashboards** and **reports**. Eager to apply **data storytelling** and **visualization** skills to support business **decision-making**.

EXPERIENCE

Billing Analyst

LUQU BABY

May 2026 – Present, Jeddah, Saudi Arabia

- Managed sales invoicing and delivery note preparation using **Tally Prime** with high **accuracy** and timely processing.
- Maintained **billing records** and verified transaction details to ensure proper documentation and error-free operations.
- Coordinated with **sales, warehouse, and logistics** teams to support smooth order processing and dispatch activities.
- Generated and maintained daily and monthly billing **reports** using **Microsoft Excel** to support operational tracking and **reporting**.

Data Analyst Intern

Rows & columns

August 2025 - February 2026, Calicut, India

- Learned the fundamentals of **Data Analytics** including **Data cleaning, Transformation, and Visualization** techniques.
- Gained hands-on experience with **Excel, Power BI, SQL, and TABLEAU** to analyse datasets and generate insights.
- Practiced building **Dashboards** and reports to present findings in a clear, structured format.
- Applied **analytical** thinking to solve **real-world Business** problems using **data-driven decision-making**.
- Gained hands-on experience with **Excel VBA, Google sheets** and **Google app script**.

PROJECTS

Automated Fuel Cost Optimization System (Excel VBA)

Rows & Columns • January 2026 - January 2026

- Developed an automated Fuel Cost Management System using **Excel VBA** to streamline data processing and reporting.
- Created **VBA macros** for fuel rate calculation and cost variance analysis to improve accuracy and efficiency.
- Designed structured **data models** and **centralized databases** for organized data management.
- Implemented **data validation**, conditional logic, and error handling to ensure **reliable automation**.

HR Analytics Dashboard (MySQL + Power BI)

Rows & Columns • November 2025 - November 2025

- Analyzed a workforce of **331,000+** employees, providing a comprehensive organisational overview.
- Identified key diversity gaps with a **59%–41%** gender imbalance.
- Detected an **18%** attrition rate, highlighting major retention challenges.
- Developed an **HR analytics** dashboard that unified complex workforce metrics and improved strategic **decision-making**.

Email Campaign Marketing (Excel + Power BI)

Rows & Columns • October 2025 - October 2025

- Developed and executed numerous targeted **email campaigns**, increasing open and **click-through rates**.
- Created and optimized automated email workflows to improve customer retention.
- Boosted conversion rates by **1.38%** using personalized workflows and behavioural targeting.
- Improved email **deliverability rates** through best practices.
- Reduced unsubscribe rate by **0.052%** through improved relevance, segmentation, and frequency control.
